SPRING AGILITY & QUICKNESS DRILLS

REASON FOR DRILLS !

- A. Our opponents may or may not be involved in an off season program. We want to provide ourselves with the winning edge. We are never satisfied !!
- B. Anyone can be mediocre ! Are you interested in doing those things that are necessary to rise above mediocrity ?
- C. Why be second best ? Remember our motto - " IF YOU ARE GOING TO WEAR THE PADS, USE EVERY CUNGE OF ENERGY TO BE THE BEST POSSIBLE FOOTBALL PLAYER".
- D. STRENGTH, SPEED, QUICKNESS, AND AGILITY can all be developed. If you will self discipline yourselves, improvement can be gained. PLEASE - no more excuses - if you want to take the necessary time, you will be able to find it available.
- E. DEVELOP CONFIDENCE ! This is all many of us need to be fine football players. Don't be afraid to be aggressive.

To all individuals who were students at R.I.T. during academic year 1971-72:

Dear Mark:

You have been recommended to me as an outstanding scholastic student-athlete possessing a desire to play college football.

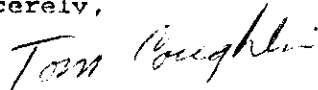

We at RIT are proud of the progress which our football program has made since its conception in 1967. However, in order to assure continued advancement, young men of your quality must "consider RIT".

Rochester Institute of Technology offers a variety of excellent academic programs. The unique work-study program which is offered in the Business, Engineering and Science Colleges provides an opportunity for students to cut down on the rising costs of a college education.

I am enclosing a football questionnaire which I would like to have you fill out and return. Upon reception of the questionnaire, further information concerning our academic and athletic programs will be forwarded to you.

I am looking forward to meeting and talking with you in the near future.

Sincerely,

Thomas R. Coughlin
Head Football Coach
